

Tel-Aviv, Israel

Datos Health is growing and looking to add a Front-End Team Lead to our team!

About Datos Health:

Datos Health offers a fully automated remote care platform designed to directly connect patients with medical sources of care from the comfort of their own homes, for improved quality of life. The platform makes it possible to safely monitor, detect, analyze and predict adverse events or other changes in patient conditions – enabling care teams to communicate and intervene in real-time and to successfully manage even the most complex medical treatment protocols.

Our full-stack remote patient monitoring solution is both device-agnostic and disease-agnostic and seamlessly equips care teams with the data and tools required to manage even their most complex and chronically ill patients.

Role Description:

- Hands On Team Lead leading developers in multiple countries
- Take part in developing our infrastructure and architecture
- Lead our React application that replaces our old AngularJS application.
- Work closely with Product, Back End Team, QA and other teammates.
- Design, Develop and integrate quality code for our Core Product

Requirements:

- 5+ years in UI development
- 4+ years' experience with basic web technologies such as HTML5, CSS3 and JavaScript.
- 4+ years' experience with React and TypeScript.
- Experience with common front-end development tools such as Babel, Webpack, NPM, etc.
- Familiarity with RESTful APIs
- A quick, independent learner, who's always looking to improve existing code.
- Ability to self-learn new technologies

Preferred Qualifications:

- Experience In leading a Front-End team
- Experience working with developers in other countries
- Familiarity with AngularJS
- Familiarity with Jest (or other test libs/frameworks)
