

Location: Tel-Aviv, Israel

Datos Health is growing and looking to add a Mobile Developer to our team!

About Datos Health:

Datos Health offers a fully automated remote care platform designed to directly connect patients with medical sources of care from the comfort of their own homes, for improved quality of life. The platform makes it possible to safely monitor, detect, analyze and predict adverse events or other changes in patient conditions – enabling care teams to communicate and intervene in real-time and to successfully manage even the most complex medical treatment protocols.

Our full-stack remote patient monitoring solution is both device-agnostic and disease-agnostic and seamlessly equips care teams with the data and tools required to manage even their most complex and chronically ill patients.

Qualifications:

- 3+ Years of Developing mobile apps using Swift
- 2+ years of Developing mobile apps using Java
- Demonstrable portfolio of released applications on the App store or the Android market
- Experience with third-party libraries and APIs
- Ability to perform in a team-oriented environment
- Strong oral and written communication skills
- Ability to interpret and follow technical plans

Preferred Qualifications:

- Experience with Kotlin

Please email your resume to: careers@datos-health.com and include "Mobile Developer" in the subject line.
